

## Tips for selecting your DJ company

as published in St. Louis Bride & Groom Magazine Winter/Spring 2008

### **Survey Says - After The Vows...**

During the wedding planning, brides say their highest priority is their attire, followed by the reception site, with reception entertainment among the least of their priorities. Within one week after their reception, 78% of brides say they would have made the entertainment their highest priority. Almost 100% of brides say they would have spent more of their budget on the entertainment. When asked, 81% of guests say the thing they remember most about a wedding is the entertainment.

### **One of the most important choices you have to make for your reception is the selection of your entertainment...**

Choosing a professional, experienced Disc Jockey can have a greater affect on the success of your reception than any other choice you make.

After months of planning and budgeting, you want your reception to go exactly as you dreamed. You want all of your guests to have a great time and not leave early. The right DJ can make all of your dreams become a reality. A professional DJ does so much more than just play music... he or she sets the entire tone of your reception.

A professional DJ will usually serve as master of ceremonies for the reception, music programmer, and reception coordinator.

Although choosing a DJ for your reception is often less expensive than live music, according to the American Disc Jockey Association, the national average for a professional DJ is \$750-\$2500 with the average being \$1200. Fortunately for local brides, the Midwest average for a DJ is closer to \$700. In St. Louis, you should expect to pay between \$550 and \$850 for a four hour, Saturday night reception.

If a local DJ is quite a bit less expensive than the average, you may want to investigate and find out why. When interviewing DJ companies you will want to cover the following:

Make certain the DJ service you choose uses commercial sound equipment, not a home stereo. Also, your DJ should offer a wireless microphone for use during the toasts and a lighting system to enhance the atmosphere of the dance floor.

Your DJ should know how to mix the songs to build momentum on the dance floor. Also, be certain that the DJ has a large selection of music for your particular music taste. After all, one of the biggest advantages a DJ has over live music is the ability to play a greater variety of music.

An experienced DJ company can provide helpful planning tips for you regarding the order of events at your reception, the optimal room layout, and valuable advice about music selection. You should work closely with your DJ company on all aspects of your reception planning. Remember an experienced DJ has seen many receptions and knows first hand what works well.

Of course you don't want any problems on your wedding day, so be certain that your DJ has a comprehensive plan for emergencies including back-up equipment and a back-up DJ in the event your DJ is ill. Also, the DJ company you select should be fully insured and licensed.

Make certain that the DJ company you select provides a written agreement outlining all of the important details including what the DJ will provide, the date, time, place, price and when the payment is due.

Lastly, it is important to spend as much time choosing your DJ service as you spend with all other aspects of your reception. Not all DJs are the same. The affect that the entertainment will have on your reception is enormous, and the benefits of finding the perfect DJ are well worth the effort.

As with any event in which TKO DJs performs, we give our clients full control over the music selection. **Wedding Party** Title: \_\_\_\_\_ Artist: \_\_\_\_\_  
All members of wedding party will dance (parents optional). Some may invite all guests to join 1/2 way through the song to kick off the dancing.

**PM Bouquet and Garter Toss.** Typically, if a couple chooses to throw the bouquet and/or the garter, they will wait at least 30 minutes after the last Traditional Dance to do so. Background music is usually played while the DJ calls the girls out for the bouquet and if the groom will throw the garter, a fun song is usually played while it is being removed. If you would like to do this, please let us know what songs to use. Ask your coordinator for alternatives to the bouquet and garter toss.

**PM Dollar Dance.** As with the bouquet and garter toss, the dollar dance usually happens at least 30 minutes after the last Traditional Dance or immediately after the bouquet and garter toss. The dollar dance is optional.

**PM Other Announcements.** Please let us know if there are any other announcements (birthdays, anniversaries, disposable cameras on the tables, guest book to sign etc.) that you would like for us to announce sometime during the evening.

**PM/AM Music Ends.** Please indicate the time when we should stop playing. This should coordinate with the time you have the hall.

## Room Layout

Please sketch or provide us with the approximate layout of the room. Let us know where our equipment should be set up. We suggest having the DJ set up next to the dance floor, so that we can have a good volume there without the music being too loud for guests at their tables.
